

Dr. Ofelya Ter-Galstyan, Researcher

Date of birth: 23 Feb. 1957

Tel. (374 60) 62-3 -90;
(374 99) 10-08-63

Education: National Polytechnic University of Armenia.

Faculty: Chemistry

Specialization: Chemical physics

E-mail: ofelya.tergalstyan@gmail.com

Research interests: Self-propagated High temperature Synthesis (SHS),
Hydrides of transition metals, Chemical and X-ray analyses; Materials science and technology.
Number of publications – 41, abstracts and materials - 31

PUBLICATIONS (Articles):

1. Aleksanian A.G., Hakobyan H.G., Beibutian V.M., O.P. Ter-Galstyan, Dolukhanyan S.K., Shekhtman V.Sh. Complex hydrides and hydridonitrides of transition metals obtained by SHS. 1. Systems involving nitrogen. "J. Powder metallurgy", , № 1-2, c. 43-46, 1999.

Book of Abstracts of **X Int. Symposium on Self-propagating High-temperature Synthesis, SHS-2009, Tsakhkadzor, 6-11 July, 2009, Armenia, p.42-43.**
 23. A.G. Aleksanyan, D.G. Mayilyan, S.K. Dolukhanyan, V.Sh. Shekhtman, O.P. Ter-Galstyan. Formation of triple alloys of Ti, Zr, Hf from their hydrides and synthesis of obtained alloys hydrides in combustion regime. Book of Abstracts of **X Int. Symposium on Self-propagating High-temperature Synthesis, SHS-2009, Tsakhkadzor, 6-11 July, 2009, Armenia, p. 359-360.**
 24. V.Sh. Shekhtman, H.G. Hakobyan, A.G. Aleksanyan, S.K. Dolukhanyan, O.P. Ter-Galstyan, M.K. Sakharov. The formation of Quasicrystals in Ti-Zr-Ni system and of their hydrides in SHS regime. Extended abstracts of ICHMS`2009, "Hydrogen Material Science and Chemistry of Carbon Nanomaterials", XI Intern. Conf., Yalta-Crimea-Ukraine, August 25-31, 2009, p.8-11.
 25. A. Aleksanyan, S. Dolukhanyan, D. Mayilyan, O. Ter-Galstyan and V. Shekhtman. New technique for producing the alloys based on transition metals. A b s t r a c t s of 17-th International Conference on Solid Compounds of Transition Elements, SCTE 2010, September 2-10, 2010, Annecy, France, p.41. http://scte2010.grenoble.cnrs.fr/IMG/file/booklet_020910.pdf
 26. A.G. Aleksanyan, S.K. Dolukhanyan, O.P. Ter-Galstyan, M.V. Martirosyan, "Formation of alloys in the Ti-Nb system by hydride cycle method and $Ti_xNb_{1-x}H_y$ hydrides synthesis in combustion regime". Book of Abstracts of SHS 2011, XI International Symposium of Self-Propagating High Temperature Synthesis, 5 - 9 Sept. 2011, EDEN Beach Resort Hotel, Anavyssos, Attica, Greece, p. 331.
 27. S.K. Dolukhanyan, A.G. Aleksanyan, V.Sh. Shekhtman, H.G. Hakobyan, N.N. Aghadjanyan, N.L. Mnatsakanyan, and O. P. Ter-Galstyan. The development of hydrogen materials science in Armenia. Synthesis of transition metal hydrides and elaboration of new technology for obtaining alloys of refractory metals. Book of Abstracts of the International Conference "Current Problems of Chemical Physics" dedicated to the 50th anniversary of the Institute of Chemical Physics NAS RA, 9-12 October 2012, Yerevan, p.37-38. <http://chph.sci.am/conference/IChPh50.html>
 28. S.K. Dolukhanyan, G.N. Muradyan, A.G. Aleksanyan, O.P. Ter-Galstyan, N.L. Mnatsakanyan and H.G. Hakobyan. Regularities and mechanism of formation of aluminides in TiH_2 -ZrH₂-Al

- system. XIV Int. Symposium on self-propagating high temperature synthesis, Sept. 25-28, 2017, Tbilisi Georgia. Book of abstracts, p. 166-169.
29. N.N. Aghajanyan *, S.K. Dolukhanyan, and O.P. Ter-Galstyan. Self-propagating high temperature synthesis of multicomponent carbohydrides in the Ti-Nb-V-C-H system. XIV Int. Symposium on self-propagating high temperature synthesis, Sept. 25-28, 2017, Tbilisi Georgia, Book of abstracts, p. 20-23.
 30. Garnik N. Muradyan*, Armen A. Hovannisyan, Seda K. Dolukhanyan, Anahit G. Aleksanyan, Ofelya P. Ter-Galstyan, Nune L. Mnatsakanyan, Karine V. Asatryan, Sona S. Mardanyan, «Synthesis in Hydride Cycle of Ti-Al-C based MAX-Phases from mixtures of Titanium Carbohydrides and Aluminum powders». International Conferences on Modern Materials and Technologies, will take place on **June 20-29** in Montecatini Terme (environs of Florence), Italy.
 31. Nella N. Aghajanyan*, Seda K. Dolukhanyan, Ofelya P. Ter-Galstyan, Garnik N. Muradyan, Karine V. Asatryan Self-propagating High-temperature Synthesis of MAX-phases in Ti-Zr-Al-C system. International Conferences on Modern Materials and Technologies, will take place on **June 20-29** in Montecatini Terme (environs of Florence), Italy.
